Dixon, Illinois (April 28, 2016) – Sewer Equipment would like to announce the promotion of Dave Madole to National Sales Manager. Dave is being promoted from the position of Eastern Regional Sales Manager at Sewer Equipment, where he has been an integral part to the growth and success within this territory since 2014. Throughout his 15 years in sales, Dave has realized tremendous success, with more than ten years in direct sales and five years in a managerial municipal sales role. His sales experience coupled with his strong leadership and organizational skills has led Dave to be a top revenue generator and new business leader on every sales team, on which he has been a member.

In his new role, Dave will be responsible for the management of all sales activities related to Sewer Equipment brands including Sewer Equipment Co. of America, Ramvac, Mongoose Jetters and Vacmasters by Sewer Equipment. Dave's wife of 18 years and three young children will be joining him in his relocation from Iowa to Chicago, where he will be closer to the Dixon facility and major airports. When he is not on the road and working, Dave enjoys coaching his children's athletic teams, traveling and spending time with his family. We are very excited to have a person of Dave's caliber leading our sales team and we look forward to the continued growth that is ahead for Sewer Equipment.
